

## **Megan Trezona to Attend 55th International Congress of Meat Science & Technology – Copenhagen**

APL Project 2009/2200.42

2009

Department of Agriculture & Food WA

Trezona M.

The main purpose for this travel was for Dr Megan Trezona to attend the 55th International Congress of Meat Science and Technology (ICoMST) in Copenhagen, Denmark and participate in a specialist meat science training course at the University of Copenhagen.

En route to Copenhagen Dr Trezona visited the pig research group at Newcastle University. In the UK she visited Professor Sandra Edwards and her research group at Newcastle University discussing their work in pig welfare, pig housing systems and nutrition. Dr Trezona also visited the University's pig research facilities at Cockle Park.

In Denmark Dr Trezona attended the University of Copenhagen for a 5 day specialist course in Meat Science. Following the course she attended the ICoMST meeting in Copenhagen then visited the Danish Meat Research Institute in Roskilde. Whilst in Roskilde there was also the opportunity to tour the Stryhnns factory, a well known producer of high quality pork liver pate. The visit concluded with a Q-porkchains workshop at the University of Copenhagen.

This project was co-funded by APL, the Pork CRC and Department of Agriculture and Food WA.
